

DEPARTMENT OF EDUCATION
UNIVERSITY OF JAMMU, JAMMU

Date:02-08-2011

NOTICE

The viva-voce of the dissertation of M.Ed 1st semester shall begin in the near future. All the students shall remain in touch with the department after submission of the dissertation. The students may also seek assistance of their respective supervisors and prepare for the viva-voce to be conducted by external examiner. The dissertation is to be evaluated out of 75 marks and viva-voce out of 25 marks on the basis of the performance of the students in the viva. Every student shall make a power-point presentation of the work done by them. It shall be done impartially and fairly to the satisfaction of everyone. The students are often confused on the questions to be asked at the time of viva. Few possible popular and tentative questions are suggested for preparation; you may tailor the questions with your dissertation work and prepare accordingly.

| | | | |
|-----------|--|-----------|---|
| 1 | What is topic of the study? | 12 | What are different type of tools used? |
| 2 | Meaning of different variables used in the topic | 13 | Name of the authors of different tools or it self-prepared, how it is prepared / Description of the tools used in study. |
| 3 | Why was this study undertaken? | 14 | Characteristics, Merits and Demerits of Questionnaire / attitude Scale Psychological test (Whichever is used) etc. |
| 4 | What are objectives, Hypotheses Delimitations and Operational definition of the terms used? Difference between delimitation and limitation | 15 | Scoring Procedure |
| 5 | What are different related researches conducted earlier? | 16 | Analysis – Name and Appropriateness of Statistical techniques used |
| 6 | How do we formulate hypothesis? Why you formulated this type of hypothesis | 17 | How do we decide about the selection of statistical techniques? |
| 7 | What is sampling /population? | 18 | Results obtained after analysis |
| 8 | What are different methods of Sampling? | 19 | How do they match with hypothesis? How the result of the present study are similar or different from previous studies? |
| 9 | What is probability or Non-probability sampling? | 20 | What is the meaning of levels of significance? |
| 10 | Define Random Sampling-Difference between Probability and Non- Probability Sampling. | 21 | What are the main findings of the study conducted. |
| 11 | Type of Sampling method used in your study | 22 | What are the key implications of the study |

It is not essential that these questions shall only be asked. But many out of these may be asked. The preparation of these questions shall help you to improve your performance in the viva.

N O T I C E

All the students of M.Ed 1st semester who are appearing for viva-voce of dissertation shall make a Power Point presentation at the time of viva on the scheduled date. The format of Power presentation is as under :

- Topic of study
- Aims or objectives of study
- Hypotheses, if prepared
- Delimitations
- Size of sample/Sampling procedure used
- Tools used (list of tools)
- Scoring & Administration
- Statistical Techniques used
- Tabulation,
- Results
- Conclusions
- Thanks
